SUMMARY

Data Analyst with a strong foundation in SQL, Python, Excel. Skilled in cleaning, analyzing, and visualizing data to generate insights and support data-driven decision-making. Interested in collaborating on meaningful analytical work in fast-paced environments. I specialize in crafting modern, responsive websites and solving problems with efficient code.

EDUCATION

Durgapur Institute of Advanced Technology and Management Durgapur, Rajbandh, W.B
B. Tech. Computer Science & Engineering Expected Graduation July, 2027
Coursework: Data Structures, Algorithms, Databases, Computer Systems
Awards: Academic Excellence (2024-25)

SD DAV Public School Jamtara, Jharkhand
Higher Secondary (XII), CBSE ,85% Graduate 2023
Coursework: Database, Python programming

SKILLS

Python, SQL, Data Cleaning, Analytics, Statistical analysis, Data Visualization

Python: NumPy, Pandas, Matplotlib, Seaborn

Languages: Python, JavaScript (React.js), HTML/CSS, SQL (MySQL), C/C++

Interests: Artificial Intelligence & Machine learning

Tools: Figma, GitHub, Git, Netlify, Render

INTERNSHIP

Data visualisation, Forage Mar 2025-Aug 2025

- Farmed business scenarios to understand which data questions needed answering.
- Selected and created effective visuals to make complex data easy to understand.
- Mastered data storytelling by turning raw information into clear visual dashboard.

Software Engineer Intern, IEPSSOLS & Co. Apr 2026-Jul 2026

- Gain hands-on experience in a real-world software development environment.
- Work closely with experienced professionals committed to fostering your growth.

PROJECTS

Personal portfolio website [LINK] Jan 2024

- **Engineered** a custom UI using modern web standards (like HTML5, CSS3, and JavaScript) to ensure seamless cross-platform compatibility and optimal user experience.
- **Designed and architected** a responsive, high-performance personal website to centralize professional projects and technical case studies.

Crop Prediction using AI [LINK] Mar 2025

- Crop Prediction Using AI is a modern agricultural technique that uses artificial intelligence (AI) to forecast the type and yield of crops based on various parameters.
- This leads to improved productivity, efficient resource use, and reduced risk of crop failure.

ACHIVEMENTS

- Awarded the **Academic Excellence Award** for the 2024-25 session in recognition of outstanding scholastic performance.
- Coding competition, Exam/comp score
- Selected for **Technical Intern** position at IEPSSOLS Pvt Ltd. as a **Software Engineer** Intern.

CERTIFICATIONS

- MERN STACK Web Development | Novacode — Aug 2025 – Oct 2025
- SQL Basic to Advance | Udemy — Dec 2024
- JAVA Data Structure & Algorithm | Udemy — Dec 2024
